which it never returns. Do not thus waking up insects from winter slumber, and waking up of grubs buried 3,000 years ago, make it easier for you to believe that your body and mine after the vacation of the great winter rest will react, though there has been 3,000 years between the death and the sounding of the archangel's trumpet! Physiologists tell us that while the most of our bodies are built with such wonderful machinery as can adapt itself to changing, and the loss of a finger is a hindrance, yet the injury of a toe joint makes no harm, still that we have two or three useless physical apparatus, and no anatomist or physiologist has ever been able to tell what they are good for.

Artists? It does it with an easy grace and an honest face that would deceive the very elect.

WHAT JENKINS SAYS.

That much complaint is being caused by land smelling down-town alleys.

That no pastor living can compete with spring bonnets in filling a church.

That when it comes to advertising a county fair, Secretary Heimstetter is right on hand.

That some of the strawberry boxes around town were picked before they were ripe.

That if rumors were only reliable there would be a matrimonial boom in the third ward very soon.

That people in town less favored than Janesville are complaining because Gentle Spring has cold feet.

That unless Chicago does better in base ball than she did last week, some of our best young men will wear their fur caps all summer.

That people who are the most anxious to have fun poked at everybody else through the paper, make the most fuss when anything is printed about themselves.

Read the testimony of a prominent citizen of Portland, Me., in order dated January 15, 1887. "I have no hesitation in recommending Dr. Seth Arnold's Cough Killer for Coughs and Colds. I had no more faith in it at first, but a few doses cured me of a cold and tickling in the throat. It is a wonderful remedy."—G. L. Walker. For sale at all drug stores. Price 25 and 50 cents, and \$1 per bottle.

We should economize at all times, but more especially when times are close. Observe the purchases of your thrifty neighbors. More substantial benefits can be obtained from a fifty cent bottle of Dr. Biglow's Cough Cure than a dollar bottle of any other cough remedy. It is a prompt, safe and pleasant cure for all throat and lung troubles. Sold by Pres. Tice & Everson.

A JOYOUS EASTER.

Sunshine and Flowers Mark the Ending of Lent's Reign.

What was Done in the Various Places of Worship.

AT TRINITY CHURCH.

Here were probably the handsomest decorations in the city. Ferns, lilies and every choice bloom known to the florist art filled the chancel and added beauty to the altar. The music was especially fine. After the "Gloria" from Mozart, came an organ voluntary, "Metzke's 'Te Deum,'" the Easter anthem, "Christ the Lord is Risen To-day," and a trio from "Atilia," "Glory to God the Holy One." M. A. Newman, J. B. Doo, Jr., E. O. Kimberly, D. D. Bennett, E. D. McGowan and George Paris composed the choir.

AT TRINITY CHURCH.

A beautiful crowd of lilies formed the groundwork for the decorations at Trinity church. Here at Christ church much attention had been paid to the music and included in this part of the morning service were the anthem "Christ Our Passover," Andrews "Te Deum," and the offertory, "It Ye When be Risen With Christ." In the afternoon a children's service was held with an able address for the children by the rector. The evening service was also a special one and the music excellent.

AT THE CONGREGATIONAL.

The pulpit at the Congregational church was decorated with flowers and house plants. A sermon on Easter was preached in the morning by the Rev. H. A. Miner, and in the evening W. S. Jeffers led children's service. In this besides calisthenics, there were recitations by Elsie Carpenter, Alice Robinson, Maud Ward, Maud Novlan, Harry M. Nansara, Charles Smith, Josey Parsons, Ruth Oliver, Annie Lake, Morgan Wise, Mary Gardner, Mattie Blakeley and Mattie Little.

AT THE FIRST METHODIST.

Flowers trimmed over pulpit and altar rail, made the First M. E. church present a very handsome appearance. The Rev. Thomas Walker's sermon was an appropriate one. The service in the evening was by the Sunday school. The following children took part: Gertrude Caniff, Mamie Green, Maud Malone, Alice Rocks, Minnie Matthews, Jennie Hollins, Hiram Bennett, and Addie Converse.

OTHER SERVICES.

At St. Patrick's church the Easter services were of a nature highly suggestive of the day. The altars were bright with flowers and candles, and the music rendered, particularly inspiring. At early mass the pastor, Rev. Father McGinley spoke on the significance of the day, the joy it should bring to all hearts, and the triumph of the spiritual. At the late mass there was also a sermon appropriate to the day.

The Rev. W. F. Brown, of the Presbyterian church, preached in the morning upon man's life after death, as illustrated in nature and as symbolized at Easter tide. The congregation was a large one and the floral tributes, although simple, appropriate.

Hosannas, sent from Florida by Mrs. C. B. Conrad, did much to brighten the always charming interior of the Baptist church and Dr. Lodge's sermons both morning and evening were appropriate to the day.

The Rev. T. DeWitt Pease preached upon Christ's resurrection yesterday morning. Court Street M. E. church was handsomely trimmed, many of the flowers being very choice.

At St. Mary's Catholic church there were no special services, but the altar was bright with flowers, and the church presented an attractive appearance.

Mrs. Little, at the school for the Blind, had charge of services in which over one hundred of the children took part. After these exercises there was another in which forty dozens of eggs figured.

DEVONIAN MINERAL WATER.

At the request of several citizens Messrs. Palmer & Stevens have procured a supply of the Devonian mineral water from the now famous well of our former townsman Mr. Gilbert Hogan. The curative properties of these waters, for indigestion, constipation, liver and kidney troubles, rheumatism, hemorrhoids and all skin diseases, etc., is something quite remarkable. So great has been the demand for these better waters that the proprietors, all the more remarkable as not one dollar has been expended in advertising, the waters having advertised themselves by the wonderful cures they have effected. The waters will be kept on draught in natural state and bottled, carbonated.

The discovery of the water was one of those peculiar freaks of fortune so frequently developed at the present day while seeking for the hidden treasure of the earth by sinking shafts and boring artesian wells. Mr. Hogan was exploring for natural gas which he found in tar supply at 700 feet, sinking deeper for a better supply this remarkable spring of bitter water was tapped at over one thousand feet, the water rose to within forty feet of the surface. The water is now pumped to the surface by an engine, the supply of fluid to run the same, natural gas, being obtained from the same well, being separately piped inside the large tuba. Some idea of the remarkable proportions of the water may be gained when we are informed a table spoonful of medicated is a large goblet.

The best medical remedy for nasal catarrh must be non-irritating, easy of application, and one that will, by its own action, reach all the remote spots and innermost sinuses. The history of the efforts to treat catarrh during the past few years obliges us to admit that only one remedy has completely met these conditions, and that is Ely's Cream Balm. This safe and pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms quickly yield to it.

PROPOSITIONS WANTED.

A Chance for Janesville Capitalists to Build the Water Works.

Mayor Wins was asked this morning what had been done in regard to the water works. His reply was that so far there had been nothing, but that steps leading to the securing of propositions would be taken at once.

"Janesville parties will have an opportunity to bid," he continued, "and I shall also place myself in communication with those that have already made proposals and with others."

"What do you think of this talk of an injunction against the letting of contracts?"

"I hardly think it amounts to much. It doesn't seem as though any would care to brook the public displeasure in that way."
